Today's Date

To

The Hiring Manager

Dear Sir / Mam,

I am writing to express my interest in AI ML position at your organization, and would be most grateful if you would consider my application. I recently completed my **Postgraduate Program in Artificial Intelligence and Machine Learning** from the McCombs School of Business, **University of Texas at Austin**, with a **4.33 GPA**. During the program, I gained hands-on experience through **8 distinct projects and 40+ case studies** across Python Foundations, Advanced Machine Learning, Natural Language Processing with Generative AI, Computer Vision, and Model Deployment. GitHub Repository Link for Projects: <https://github.com/shreekumar04/AI-ML>.

I am currently working as a Project Manager and bring **over eight years of cross-functional experience** spanning delivery, operations, sales, and presales within the tech consulting industry. In addition to that, I hold an **MBA from one of India's top 20 business schools** and a **B.Tech degree in Electrical Engineering**. I began my career as an **Electrical Engineer in a steel plant**, and over the past eight years, I have demonstrated commitment and leadership in my current organization, earning recognitions such as the ***Star of the Quarter*** and ***TCS Xcelerate Victor*** awards for professional growth, innovation, and client success.

With my background, I bring a strong blend of **technical expertise, hands-on project experience, and business acumen**, positioning me to contribute effectively in AI/ML roles. I am highly motivated to **continue learning** and thrive in collaborative environments, **building meaningful relationships** within the team. Details of my accomplishments and achievements can be found in my attached resume.

I greatly admire your commitment to quality and innovation, and I am enthusiastic about the opportunity to apply my skills to support the team's success. I would welcome the opportunity to discuss how my experience and qualifications align with your needs. Thank you for your time and consideration, and I look forward to connecting with you soon.

Sincerely,
Shree Kumar Sahu

SHREE KUMAR SAHU

AI ML ENGINEER / ANALYST

Machine Learning & Deep Learning | Natural Language Processing with Gen AI | Computer Vision | Data Analysis & Visualization | MLOps & Deployment

Graduated from the PG Program in AI/ML from UT Austin, TX recently and have 9+ years of cross-functional experience in the tech consulting industry. Currently serving as Assistant Consultant at TCS in the Oil & Gas vertical, with expertise across operations, presales, and delivery. Hold an MBA as the highest qualification, with strong skills in stakeholder management, customer engagement, and analytical problem-solving.

WORK EXPERIENCE (9+ years)

Tata Consultancy Services (TCS) – Houston, Texas

Aug 2017 – present

Assistant Consultant

Over 8 years of cross-functional experience in delivery, operations, and sales within the Tech consulting industry, with expertise in stakeholder management, problem-solving, and customer engagement.

- Currently working as a Project Manager for a Pipeline major working on a large-scale M&A project, ensuring seamless Business and Technology integration – Operations Management
- Presales and Pricing Consultant: Experienced in handling large and diverse business proposals across major markets of North America and South America including large ERP Transformations, ADM, BPS and Infrastructure proposals.
- Energy & Resources – US Division Project Manager: Directed Operations & Strategy for all accounts in US, overseeing end-to-end activities from deal initiation to revenue recognition.

Jindal Stainless Limited – Jajpur, Odisha, India

Jul 2014 – Jun 2015

Graduate Engineer Trainee – Electrical Operations & Maintenance

Posted as an Electrical Engineer, I used to lead shift operations at a 220KV Electrical Substation, ensuring reliable transmission and distribution of electric power for a large Steel plant.

- Monitored and regulated load flow across the plant, troubleshooting and stabilizing the system during anomalies or grid fluctuations.
- Contributed to the Energy Conservation Cell by analyzing plant systems and recommending energy-efficient solutions to optimize performance.

CERTIFICATIONS

Post Graduate Program in Artificial Intelligence & Machine Learning

McCombs School of Business, University of Texas - Austin, TX | Oct 2024 to Sept 2025

- Graduated with a 4.33 GPA, completing 8 hands-on projects and 40+ case studies across modules including Python Foundations, Advanced Machine Learning, Neural Networks, Computer Vision, Natural Language Processing, and Model Deployment.

AI/ML PROJECTS

- Developed a RAG-based AI solution for medical query handling using the Llama large language model (LLM) from Hugging Face, incorporating prompt engineering and fine-tuning with domain-specific medical manuals for enhanced contextual accuracy.
- Built an end-to-end sales revenue prediction system involving EDA, feature engineering, and model training using Random Forest and XGBoost; implemented backend APIs, containerized the application with Docker, and deployed on Hugging Face Spaces.
- Designed and tuned a deep neural network for bank customer churn prediction, evaluating various architectures (2–4 hidden layers), activation functions, weight initializers, optimizers (SGD with momentum, Adam), and regularization techniques. Achieved 80% recall on test data through recall-focused model optimization.

Developed other AI/ML projects across domains such as Computer Vision and Ensemble Learning (Bagging, Boosting). GitHub repository link: <https://github.com/shreekumar04/AI-ML>

PROFESSIONAL SKILLS

- **Programming & Data:** Python, C, Pandas, NumPy
- **Machine Learning:** Deep Learning (CNN, RNN, Transformers), Scikit-learn, TensorFlow, PyTorch
- **Natural Language Processing:** Large Language Models (LLMs), Prompt Engineering, Retrieval Augmented Generation (RAG)
- **Visualization & Reporting:** Matplotlib, Seaborn, Power BI, MPP, Tableau
- **MLOps & Deployment:** Docker, Hugging Face, CI/CD, Cloud Platforms (AWS, GCP)

AWARDS AND HONORS

Xcelerate Vector | TCS Aug 2023

- Achieved significant career milestones through the TCS Xcelerate platform, demonstrating commitment to structured career development and professional growth.

Special Initiative Award | TCS Mar 2021

- Developed and implemented a macro-based pricing tool that was adopted across multiple verticals, streamlining processes and improving efficiency.

Star of the Quarter | TCS Oct 2020

- Drove critical presales initiatives in the LATAM market, enabling business growth and successful client acquisitions.

EDUCATION

Master of Business Administration (MBA) in Business Management

Xavier Institute of Management (XIMB) – Bhubaneswar, India | July 2015 to Apr 2017

Bachelor of Technology (B. Tech) – Electrical Engineering

Siksha 'O' Anusandhan (SOA) University – Bhubaneswar, India | Apr 2010 to Jun 2014

ADDITIONAL INFORMATION

Gender: Male

Language Competencies: English (Fluent), Hindi (Fluent), Odia (Native)

Visa Status: H1B (staying in US since last 2 years – valid till 2027)

Citizenship: India

Hobbies & Interests: Sports (Soccer, Cricket), Travelling, Photography
